

# **About Village Enterprise**

Village Enterprise is ending extreme poverty in rural Africa through entrepreneurship, innovation, and collective action. Founded in 1987, Village Enterprise equips vulnerable women, refugees, and youth with the skills and resources to start climate-smart businesses, build savings, and put themselves and their families onto a sustainable path out of extreme poverty.

Community-based and locally-led, its cost-effective poverty graduation model has been proven to significantly reduce extreme poverty in two independent randomized controlled trials (RCTs). Village Enterprise is also the only international nonprofit with a perfect score from Charity Navigator. The organization is focused on scaling its work and forging strategic partnerships with governments, nonprofits, and private sector entities to reach their ambitious goal of lifting 20 million people out of extreme poverty by 2030.

Village Enterprise's program is proven to increase consumption, assets, income, savings, net wealth, nutrition, and food security for the vulnerable populations they serve. Their most recent RCT found their model to have a 534% cost-benefit ratio, meaning that for every \$1 invested in Village Enterprise, their entrepreneurs create \$5.34 of income. On top of this life-changing impact, Village Enterprise has led the way in pioneering successful results-based funding models

such as the Village Enterprise Development Impact Bond (DIB), the first-ever DIB for poverty alleviation in Africa. Their innovative DREAMS model—which is transforming the lives of refugees in Ethiopia, Tanzania, and Uganda is the recipient of a Fast Company World Changing Ideas Award and the Larsen Lam ICONIQ Impact Award for Refugees managed by Lever for Change.

In a world grappling with escalating conflicts, economic challenges, and the pressing threats of climate change, Village Enterprise stands at the forefront of humanitarian work to alleviate extreme poverty. With a strong presence in four East African countries (Ethiopia, Kenya, Rwanda, and Uganda), partnerships in three additional countries, and an annual budget of \$20 million, the organization is committed to ending extreme poverty in rural Africa through their evidence-based approach. Driven by their core values of ubuntu, passion, integrity, innovation, and sustainability, Village Enterprise serves as a catalyst for cost-effective, scalable solutions to extreme poverty that transform lives across rural Africa.
